

THE ESTATE
**IN CABANEROS
NATIONAL PARK**

This exceptional property is located in the Toledo mountains, in the municipal districts of Hontanar and Los Navalucillos. It is located within the Cabañeros National Park and comprises 1,409 hectares and includes part of the Estena River and various smaller rivers.

The property lies in a prime location: a retreat on top of a hill, at between 1,000 and 1,500 metres above sea level. It perfectly blends the warmth of a home with being in the midst of nature, surrounded by spectacular wildlife and lush vegetation. What is more, it is only 170 km away from Madrid and 45 km away from the beautiful city of Toledo. This wonderful setting, together with the mountains that make it up, offer a landscape with spectacular views.
