ESPACIO 1870

This building, located on Calle San Lorenzo 20, was built in the second half of the 19th century by the Marquis de Villamagna, where he settled for several years. It was purchased years later by the Vatican, housing throughout its history from a university to a residence of a religious order.

Today it still retains its original appearance due to the fact that the renovations have respected its original structure and details, a space completely adapted to the contemporary use where original nineteenth century frescoes are preserved in their halls.

1870 is its year of construction, hence the name we give to the space for events inside the residence. It has two rooms that are fully functional and can be converted according to the use required to organize showrooms, cocktails, presentations and all kinds of meetings that need a place with their own character. Both rooms have a maximum capacity of 80 people.

Depending on the needs you can join these two main lounges two more, which are a library and another cozy living room with fireplace and the gallery located next to the old stained glass windows of the building. The use of the whole plant would be about 156 meters. The lounges have a cloakroom and two bathrooms.

The building also has a unique patio, which we manage as a complement to the rooms where you can organize from shoots, cocktails, breakfasts ...

Located in Chueca, one of the reference neighborhoods of the cultural life of Madrid, it has public parking facilities in the streets Farmacia and Santa Brigida.
